

Accelerate your business, simplify your collection.

PROUDLY PART OF THE ORIGON ECOSYSTEM

Dito is a **cloud platform** that digitalizes and automates the complete revenue cycle: from invoice issuance to collections and liquidity. A comprehensive solution for companies looking to convert their sales into cash quickly, traceably, and efficiently.

The problem it solves

High DSO

Accounts receivable days that extend unnecessarily

Fragmented processes

Manual, disconnected, and error-prone workflows

No visibility

Impossible to know with certainty when and how much will be collected

Manual reconciliations

Hours spent cross-referencing information between portals, emails, and files

4-in-1 Solution

Electronic invoicing and compliance

Unlimited issuance, manual or automatic. Recurring invoices, fiscal complements, and direct cancellation with the tax authority.

Automated collections

Reminders via email, SMS, and calls. Payment promises, automatic reconciliation, and credit bureau reporting.

Liquidity and factoring

Convert accounts receivable into immediate liquidity. Invoice advances, pre-approved credit lines, and same-day disbursement.

Collaborative B2B ecosystem

Buying communities, self-service customer portal, and unified catalogs between buyers and suppliers.

Tangible benefits

Greater visibility

Complete traceability of the revenue cycle in real time

Fewer errors

Elimination of rework and manual reconciliations

Lower costs

Reduction in the operational cost of finance teams

Lower fiscal risk

Guaranteed compliance and simplified auditing
